

H-Series MPO Patch Cassettes

H-Series MPO Patch Cassettes can be used to connect MPO trunk assemblies or MPO fanouts, utilizing less rack space in order to improve network economics. With front access to both inbound cable and MPO adapters, this H-Series cassette provides an installer-friendly solution for fast inbound and outbound cable installation and management.

Features

Shallow-Depth Deployment

- Can be installed in shallow-depth H-Series 7RU housing (<300mm)
- Space for up to 1728 fibers across 12 MPO Patch Cassettes

Front Loading Cassettes for Easy Moves, Adds, and Changes (MACs)

- Up to 12 MPO ports (144 fibers) per cassette
- Easily accessible and facilitates faster installation of MPO trunks
- Cassettes can be clipped in a place for secure patching
- Slim cassette with clear finger access to MPO adapters

Applications

- Colocation
- Data Center
- Campus
- Service Provider
- Central Office
- Office Backbone
