

UTILITY TRUCK LIGHT

SOL-T1

This remote-controlled LED truck light with built-in rechargeable Li-ion battery is a rugged and versatile lighting solution ideal for vehicles, utility crews, emergency response, and outdoor job sites.

- 4 high-powered LEDs and 1 laser bulb provide up to 4800 lumens of ultra-bright illumination, with an optional mode that includes a flashing strobe for emergency signaling.
- Remote-controlled 360° rotation and 120° tilt for flexible positioning and optimal lighting angles, with a convenient home reset function that returns the light to its default stowed position.
- Built-in 10,000 mAh rechargeable Li-ion battery for portable, wireless operation up to 4 hours.
- On-Demand Power Technology enables simultaneous use and charging with included vehicle and home power adapters.
- Versatile installation options with an integrated magnetic base for temporary placement, bolt-on slots for permanent mounting, and a foldable handle for easy carrying and setup.
- High-durability ABS housing is impact-resistant, withstands heat and UV exposure, and is IP65 rated for reliable use in harsh outdoor conditions.

SPECIFICATIONS

UNIT OF MEASUREMENT	Imperial
BRIGHTNESS	4800 lumens
BATTERY LIFE	4 hr (Light only)
REMOTE BATTERY	23A 12V (2 Batteries)
REMOTE RANGE	170 ft.
VEHICLE CHARGER	12 ft, 12 V
WALL CHARGER	12V
MATERIAL	UV-Resistant ABS
COLOR	Black
WATERPROOF/DUSTPROOF RATING	IP65
UPC #	810132439124
