JPL Convey

USB-A and USB-C compatible

Data Sheet

The new **JPL Convey** is the ideal choice for anyone wanting to talk and listen hands-free when using any of the major softphones like Microsoft Teams, Zoom, RingCentral, WhatsApp etc.

If you are in a quiet meeting room or at home, this is the perfect small portable USB speakerphone. Supplied with both USB-A and USB-C adapters it is literally plug and play with your PC or laptop, and is part of our "Software Last" range of products.

- **Host meetings in moments**, with a plug and play USB-A or USB-C connection for PC and Mac. The simple interface is easy to use, with only 4 illuminated buttons: volume up, volume down, mic mute and speaker mute.

- **Communicate clearly** - Perfect for team briefings and pitches to clients. The *JPL Convey* is ideal for any small office or meeting room with up to 4 people. The high quality speaker is loud enough for your whole team to hear.

- **Use for more than just conferences or team meetings** When you're not using it as a business conference phone, try using it for listening to music/radio, gaming or using as a speaker to enhance the sound of a Youtube video.

- **Clarity in design** - No status confusion with the full LED indicators showing whether the mic and/or speaker is muted.

- **Protective carry case included** - Take your *JPL Convey* with you wherever you go. It's the little speakerphone that thinks and acts large.
